

Scale How,
Ambleside.

Dec. 13th 1921

My Dearest!

Yes. your little
visit - was like Eppie's

Cocoa - pretept + comforting -

very! How late for us

the memory of the mountains
+ the biscuits and you.

These dear people for
on Thursday. + they

have been a sweet +
 pleasant family party.
 + I think they will do well.

Either of the dates you
 name for the Cong: wd
 suit us - so please fix
 on the date you like best.

I am looking forward
 to it with joy of heart
 & without much fear
 for I have for many
 our parties & things without
 'having a hair' - except

Scale How,
Ambleside.

That a foggy day made
itself felt a little!

What nice news about
the Miss B.P. & how the
Carron's are atmosphere
of friendship & acquaintance.
Ship along with her.

By the way, while in
the act of "exploring every
avenue" I didn't go
down that called "Oliver"

Latti took another turn
 two or three times when
 I meant to! But Miss
 Parrish tells me of the nice
 work she is doing & I
 am glad.

Tell me of the dear Michael's
 results.

I like the little book
 immensely - Thank you
 for putting my name
 in, Dearest. Here's the
 best! From ever loving
 Chr.

(disables)

P.S.

"I shared rather like
the Grasmere preacher to
see how his efforts have
been appreciated."

Dec, 21 - 1921

My Dearest!

You are crossing
today & we have a
very wet & windy day.
I hope you may
have better weather.

I am sending
you "Old Japan" which
you may find treasure

but it interests me
greatly because of the
early Victorian type
of manners & mind
ten centuries old!

With just ever so
much love & Christmas
wishes

Yours
Mrs

House of Education,
Ambleside.

of the Agents - of
your office and

transact -

the

the

the

What a terrible

a long time it has waited

for an answer - but I

have been pained

breathlessly ever since

to say nothing of a hundred

other things. but then - how

out - flammable eggs made

in strong to labour?

was so many thanks.

I sent this to London
for your much needs
to be at home for Buckhurst-H.
I am intrigued at the
meeting - It was most
spiritual of Miss Gardner to
fill it up. - by the way
the London Inty on the 2nd

for which you will probably
not return - postponing
the felicity of the pamphlet!
Then again, Miss W.
is to speak to this class.

Ambleside.

3

So perhaps you will, & - London
has it!

How you have enjoyed your
two boys' all by yourself at
Glennell - tell me about it
sometimes. I'm glad you

liked Kellett's capital paper.

We are turned out of
house & home & are lodging
with Mrs. Gibber - you know?

She tells me of memories
such as yes, old, & they
are very dear memories to

on & I don't need much
reminding.

So far of Mr. Glouster
my paper - I wish for his sake
that it were more interesting -

And now, having cleared the
decks, I am prepared to
deal with Lady A's broadside -
such a salvo!

1. Great minds jump
together - but that I had
Brought of a Company - but
is dormant such a school
as you describe - I'm sure

House of Education,

5

Ambleside.

The shares with subscribed
 & the girls will come - Yes,
 madam, I am with you -
 we must discuss the? & of
 site, company formation, &c,
 when we meet - in Feb.!!

(I was sentimental today the
 out-field then you went off
 to find Jungi!)

Of course - all the big schools
 are company schools in these
 days & our credit is extremely
 low -

2. Old Pupils Union - &
 exceedingly desirable - but what

in the world is to collect old
names & addresses & to link
represent & past? We are all
her and the office, so been many
long - perhaps Mrs. Steinthal
would be able to help a little -
~~Mrs. Steinthal might help~~
a little for the old days -
& you might begin with a
unlabeled letter in P.B.

3. Yes - But -

Durham is a delightful
idea - but. I fear the railway
will hardly be moved this
year & people will not like
to carry this ch. about if they

House of Education,
Ambleside.

7!

is conjecture -

But I have a crafty
 objection then that - I have a
 great & increasing longing to
 see the dear school in the flesh,
 before I depart & have been
 figuring to myself various plans
 for a natural week - geology
 botany, birds, insects,
 geography - WATER excursions
 all things sweet & lovely. Such
 a time!

But ~~then~~ ^{next} year is the Students
 Conference - & I don't think I

could do to this - however - I
think the travelling of a large
no. of people bound to the same
destination - something of a

difficulty - this year -

And now I am going to
suggest a project.

The Corp. holiday people have given
up Seal Row + taken a house of
their own - Why not ask the
College for a RHEU corp holiday
place? I have often thought of
the possibility - all sorts of
lectures + excursions would be
available - I have meant to
speak to you about this for some time
but I have been too busy - I have
not put the house in the hands

Jan. 26th 1922

Dearest!

Scale How,
Ambleside.

I feel I have neglected you - but
the school is a big job & must have
much work. & I am working through
the papers - Also, you will like to know -
picking out drawings poems, &c. & writing
papers for a Corp: Show: I don't think
it much as dumping people down to
hundreds & hundreds.

You will like to know that our two
Examiners have been a great success
& have come, prompted by you, with quite
refreshing enthusiasm to the work.
All the same, they have found it a
very heavy job.

I wonder have you any place in the
Office where they could work if they
do it at home at Easter. big packing
cases will hardly find room in their
places.

Both the wives are I hear very eager
about it & want to become members.

I wonder could you take them (the
husbands) to see Miss Delt & Miss Hanna
sometimes. but - I don't - suppose you can.

Thanks for your note re the Conference
& for telling Miss Perick the middle of July
will be time enough to hear - S. K. has
been out this afternoon making enquiries
& we think we see the way to abundant
accommodations. but we shall be glad
to leave details till later.

Six years old: Yes - we shall begin at

five. The later beginning was to give
parents the first chance (off home 2d.)

Miss Kirkpatrick's parents are interfering
her because "circumstances have arisen" -
perhaps fortune is the circumstance. Thanks
to Lady A. all the same.

Alas, we have 8 or 9 influences in each
house! but - they are doing well.

Scale How,
Ambleside.

Conf: I think we must try
to get some important people for
M.C.W.'s day. & have a special
^{also} Mtg for them in the afternoon ^{also}
while the rest are out-doing things.
I do hope your two patients are
doing well & that no more have
started. I am glad you have Nurses
Adelaide

About the pamphlets. I think they
must not be bound by this
for mine, at any rate, will I hope be
coming out in my book. & that may
in time be true of others - besides.
See, the work that has been done has
been done by pamphlets - not books.
"People" will know just that
they are lending a hand to a big
thing.

24 Alterations - feel - some one to
make them send to me for sanction
but - it will be done soon as I may
not be in a position to sanction
reprints.

Surprise? visits - I think the idea
a splendid one - but it would
have to be begun very tentatively,
& perhaps casually.

I am glad Michael has got
back.

And - and - and -
I have lots more to say, but no
more time.

Yours loving
Chr.

is pippen to

Scale House,
Ambleside.

the matter but I
wrote now as she
is very busy
posting the
dearest - School
I find I am out
I will receive
I will practice
I will
the Conf. for the
of the A. the
and - Lady A. the
dear love C.M.

as a dozen or so
his (?) circulars - no
doubt - he expresses himself
in something very chic
which we could send to
the various parents.

I find I have been
at sea about the meeting

of the students - Cooks
don't keep a Prince Charming
at every village station
or so - The parents who
consulted ^{them} ~~him~~ last-

yr. found their charges
for meeting so heavy
that it was given up.

I am absolutely sure
that J's arrangements will
be more careful as well
as cheaper - Kit - Kit - is working

29/5/1822

Scale How,
Ambleside.

P.S. I have never thanked
you for Lady Barton Rowell's
letter.

I wonder could you
ask her to let her Sec.
send me some informing
papers. I shall consult
the whole thing carefully
& then write to her. There
are several difficulties
in the way but possibly

is9p4pna22

They may send me
papers which should
make all plains-sailing.

There are several other
other things I want
to write about - but

Kel = Kit - has come to me
in the "summer parson"
to send her love & collect
letters
